

**If you have recently purchased a used Premier Stainless Brewhouse or Keg Washer, please see the Service Plan options listed below.**

<b>Service Plans for Used Premier Stainless Brewhouse Equipment Purchase</b>		<b>Price</b>
<b>Option 1</b>	Tank Drawings, layouts, loads and utility specs provided to the original owner of the used equipment you purchased. This does NOT include technical support, product support or updated registration of your equipment in our customer database.	<b>\$495.00</b>
<b>Option 2</b>	All services from Option 1 <u>PLUS</u> : Registration of your equipment as a new customer in our system so we can better service your future needs. Assist via phone & email technical questions related to your equipment set up, trouble shoot equipment issues, plus startup assistance & brewery operations. NOTE: Selecting this plan reduces the 'Brewhouse Installation & Commissioning Option' rate by \$100 per day.	<b>\$1,950.00</b>
<b>Option 3</b>	All services from Option 1&2 <u>PLUS</u> : We will also add system layouts, CAD drawings of the equipment in your building/space (customer must provide CAD or PDF drawing files), along with providing mechanical loads for you to present to your architect, contractor, trades, etc. This option provides a similar level of service and support that a new Premier customer experiences with their brewery equipment purchases. NOTE: Selecting this plan reduces the 'Brewhouse Installation & Commissioning Option' rate by \$250 per day.	<b>\$4,500.00</b>

<b>Brewhouse Installation &amp; Commissioning Option</b>		<b>Price</b>
Premier can provide professional “on-site” set up, installation, commissioning, and brewing services to ensure that your used equipment is operating efficiently, effectively, and as originally designed. For a daily rate of \$895 (travel & lodging billed at actual rates), you can have one of our highly trained and highly experienced installation technicians/brewers come out for equipment set up, commissioning, or both! So let us know how we can get your used equipment operating and making beer in record time.		<b>\$895.00 per day</b>

<b>Service Plan for Used Premier Stainless Keg Washer</b>		<b>Price</b>
We have recently set up a new program that allows new owners of used Premier Stainless keg washing equipment to receive the legendary service and support that our new Premier customers have enjoyed over the past 25 years. For a fee of \$395, you will be registered in our system as the new owner of your Premier keg washer, with updated billing, shipping, and contact information. This allows you to access our award-winning telephone tech-support, after hours emailed tech response, user manuals, drawings and program update notifications. Registering your keg washer with Premier is easy, and will give you the confidence your machine will continue to operate effectively for years to come.		<b>\$395.00</b>

<b>Service Plan for Existing Premier Stainless Brewhouse</b>		<b>Price</b>
We have recently set up a new program that allows new owners of an existing Premier Stainless brewhouse location to receive the legendary service and support that our new Premier customers have enjoyed over the past 25 years. For a fee of \$595, you will be registered in our system as the new owner of your Premier system, with updated billing, shipping, and contact information. This allows you to access our award-winning telephone tech-support, after hours emailed tech response, and tips for brewing on your new set up. Registering your brewery with Premier is easy, and will give you confidence your system will continue to operate effectively for years to come.		<b>\$595.00</b>

<b>Used Premier Stainless 'Tank Only' Purchase</b>		<b>Price</b>
Tank Drawing provided to the original owner of the used tank(s) you purchased (price per drawing). This does NOT include technical support, product support or updated registration of your equipment in our customer database.		<b>\$195.00</b>
